

Partner: LSSEV

Date: September 1st

Period covered by this review: 1 Mar. 2021 to 31 Aug. 2021

Please complete this form to record the **activities** and **progress** in the period.

<p>Communication:</p> <p>Which partners have you had communications with?</p> <p>How often and in which way have you communicated with partners?</p>	<p>Zoom meeting plannings. LSSEV has hosted the meetings sending the credentials to all partners. Some meetings have been recorded to allow absent partners to watch them.</p> <p>Frequent communications via mail and whatsapp with all partners.</p>
<p>Quality indicators:</p> <p>If you have identified new factors that may hinder the project objectives and results, then please make a list and suggest how we may be able to influence these in a positive way.</p>	<p>No suggestion to give</p>

<p>Innovative aspects:</p> <p>Describe any innovative aspects regarding your activities.</p>	<p>Since the antiCovid measures did not allow us to organize any dissemination event in attendance, we have held a second online course addressed to teachers of Milan schools from elementary to high-school. The teachers who had already attended the first meeting on the Clilstore platform potentiality, have been preferably enrolled in the course. In order to make the best out of this experience, we have opened some "rooms" on Zoom to work in small groups. After a general introduction, the teachers have started to work in each stanza alternatively to get more familiar with the use of Multidict, Wordlink and the main functions to create a unit on Clilstore. The course has been officially acknowledged by the Ministry of Education and included in the national platform "SOFIA" for teachers' training. Both the trainees and the trainers have received an attendance certificate.</p>
<p>Management and Partnership activities</p> <p>Do you feel that the information relating to the management of the project is sufficient, relevant and effective? (Please comment).</p> <p>Please grade the quality of partnership activities according to the following scale: 5 very positive, 4 positive, 3 neither positive nor negative, 2 somewhat negative, 1 negative.</p>	<p>The project organization has always been very efficient and precise. Ana Gimeno has always managed the organization in an excellent way meeting all our requests and being truly helpful.</p> <p>Grading partnership involvement and activities: 5</p>

<p>Dissemination: List of dissemination activities you have been engaged in.</p>	<p>Mailing list about the Cool project progress and update sent to all families and teachers at LSSEV. Second training course on the use of Clilstore platform open to teachers from Milan schools. About 35 teachers have been involved. (See the innovative aspect previous section)</p>
<p>External impact/mainstreams: Any multiplier effect/impact.</p>	<p>We have received some very positive feedbacks on the quality and efficiency of the dissemination courses and of the Clilstore platform.</p>

Summary of Local Activities during this period:

Constant exchange of information and cooperation with the partners by e-mail, Zoom, Whatsup.

We have organized the Zoom meetings.

Newsletters about the Cool project progress and the Clilstore platform.

Updating of the school website section dedicated to the Cool Project.

Second training course for teachers from elementary to high-school on the use of the platform to create units including online interactive exercises.

Check on the content of the guidebook and following feedback to Sandra ETI. Translation of the guidebook in Italian and of the graphic images which needed an Italian version (Screenshots, explanatory notes etc.).

Check on the Italian interface of the platform to exactly match the Italian version of the guidebook.

Translation of the MOOC modules.

Translation of the promotional video in Italian.

The video has then been uploaded on the Cool dedicated section in the school website.

Frequent check of our units on Clilstore.

Some issues about graphics and texts matching have been notified and immediately tackled by Kent (FAZ) and Caoimhín (SMO).

Delays (if any) in planned activities and outputs (If applicable how will the team compensate for the delays and catch up):

Due to Covid restrictive measures one of the meetings has been postponed. Our goal is to hold the meetings before the end of the project.

Other comments: work in the recent months has been quite demanding and we are very satisfied with the outcome.
